

PDS Handles All of Our Glass Customers With Care

Glass fabricators specializing in cutting, polishing, and beveling glass need predictable production. When a spindle is underperforming or goes down, quality is compromised, and production suffers. That's why glass fabricators trust Precision Drive Systems (PDS) for fast and reliable high-speed electro spindle repair service for grinding, chamfering, and polishing applications.

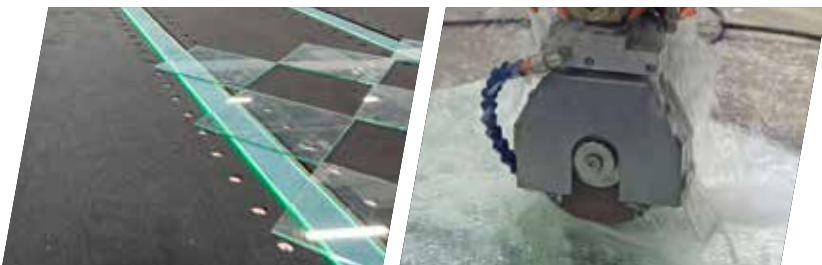

TURN TO DECADES OF SPINDLE EXPERIENCE AND SUPPORT

Whether it's a spindle from one of the industry's leading brands or a custom-engineered spindle for a specific glass machining application, PDS has your new spindle needs covered. Regarding after-sales service and support, our factory-trained engineers and technicians have successfully repaired and rebuilt more than 40,000 spindles in a wide range of industries to the same or better-than-new OEM specifications.

KEEPING PRODUCTION MOVING

PDS provides a wide variety of products and services for the glass industry, including:

- > **Spindle Repair Services and Troubleshooting** - Replacing the faulty elements causing a problem
- > **Spindle Rebuild Services** - Refurbishing your spindle to run and perform like new
- > **Spindle Retrofit Services** - Upgrading components and technologies to maximize reliability, power, torque, and speed
- > **Spindle Replacements** - Providing new OEM spindle with matching specifications or one with more capabilities

SPINDLE EXPERTISE FOR A VARIETY OF APPLICATIONS

PDS spindles are engineered to work well with the materials used most often in the glass industry.

Ask about our industry leading optional 24-Month Warranty and Industry 4.0 Spindle Health Monitoring System.

Contact PDS today to schedule a spindle repair or to request a new spindle specifically suited to your glass operation.
